ABOUT ME

Hi, I’m [Ime]

I’m a third-year Media Technician student at EGSŠ Radovljica. I enjoy taking an idea all the way to a finished piece – a poster, a brand, a video or a website.

My illustrations were printed in our school newsletter, which every student received, and I designed a promotional leaflet for my school. I learn quickly and independently, and I use AI tools such as Claude Code to build web projects beyond my current coding level.

For my Erasmus+ placement I’m looking for a team in graphic design, video editing or web development where I can learn from professionals and contribute from day one. My first choice would be video editing, which is what I enjoy most.
